

## ERA-NET Cofund Smart Urban Futures (ENSUF) Instructions for drafting a full proposal

---

A full proposal formally consists of three parts;

- **Part A** contains the administrative information about the proposal and the participants and will be completed online within eCall;
- **Part B** is a PDF document that contains a description of the proposed research ("Full Proposal Form");
- **Part C** is a number of files that contains additional national information about participants.

Please find below instructions for drafting each part of the proposal.

### **1) Instructions for drafting "Part A" of the proposal**

**Part A** will contain the administrative information about the proposal and the participants. The information requested includes a brief description of the work, contact details and characteristics of the participants. This information will be directly filled in via the submission system eCall. Please note that only partners that request funding need to be registered in eCall.

### **2) Instructions for drafting "Part B" of the proposal**

**Part B** provides the template for your proposal. It will help you present important aspects of your planned work in a way that will enable the experts to make an effective assessment against the evaluation criteria (see call text for more details).

- **IMPORTANT: Language**

Proposals must be submitted in English. Additional information or documents may be requested by national/regional programmes in national language (= Part C).

- **IMPORTANT: Page limits**

Remember to keep to the page limits. Please stick to the following formatting requirements: font size: 10 pt, line spacing: 1.15. The page size is A4, and all margins (top, bottom, left, right) should be at least 20 mm (not including any footers or headers). Ensure that the font type chosen leads to clearly readable text (eg. Arial or Times New Roman). As an indication, such a layout should lead to a maximum of between 5000 and 6000 possible characters per page (including spaces).

Even where no page limits are given, it is in your interest to keep your text concise since over-long proposals are rarely viewed in a positive light by experts. **Please note that you will be asked by the Call Secretariat to shorten your proposal after submission if the intended page/word limits are exceeded.**

### 3) Instructions for drafting "Part C" of the proposal

Most national agencies request additional national information. Please find the requested files for Part C on the JPI Urban Europe website (file name "ENSUF\_National\_Forms\_C\_full\_proposal\_phase.zip"). Please note that FNRS, FWO, RPF, IFD, Tekes, AKA, ANR, MIUR, RCN, FCT, UEFISCDI and FORMAS do not require additional national information.

**Please note that all Part C files should be submitted as an attachment via eCall.**

Letters of intent might be included to stress the commitment of project partners.

For further information on Part C, please get in touch with your national contact point.
